

Bambu Lab DLB018 Button Board with Chamber Temperature Sensor

SKU / Model: DLB018

Product overview

? Product Name Bambu Lab DLB018 Button Board with Chamber Temperature Sensor
Compatible with X1 and X1C Printers ? Product Overview The Bambu Lab DLB018 Button Board with Chamber Temperature Sensor is a key electronic module for X1 and X1C printers. It combines user interface button functionality with integrated chamber temperature monitoring, ensuring precise control and stable operation during printing. Designed for reliability, it supports consistent performance in advanced printing environments. ? Top Highlights ?
Button interface Provides direct user input and control ? Temperature sensor Monitors chamber conditions for stable printing ? X1/X1C compatibility Tailored for Bambu Lab X1 series printers ? Reliable integration Ensures seamless communication with mainboard ? Durable design Built for consistent long-term performance ? Technical Details Specification Details Model DLB018 Type Button Board with Chamber Temperature Sensor Application Provides button input and monitors chamber temperature Compatibility Bambu Lab X1, X1C Function User interface control + chamber environment monitoring Design Feature Integrated sensor with button board PCB Durability Engineered for reliable long-term use ? Why You Should Buy It ? Combines button control and chamber monitoring ? Designed specifically for X1 and X1C printers ? Ensures stable operation and print quality ? Durable construction for long-term reliability ? Recommended Use Cases ? Replacing a faulty button board in X1/X1C ? Monitoring chamber temperature during prints ? Ensuring stable operation in advanced printing setups ? Supporting maintenance and servicing of X1 series printers ? Customer Assurance ? Returns Policy: Returns accepted as per standard reseller terms and conditions ? Shipping Info: Delivery handled by reliable logistics partners with tracking support ? Customer Support: Assistance available via official support channels and authorized resellers ? Call to Action Upgrade your X1 series printer with the Bambu Lab DLB018 Button Board for precise control and monitoring. Thanks for choosing YOUR TRUSTED IT PARTNER.
