

DELL 2TB 7.2K SAS 3.5" HDD

SKU / Model: 067TMT

Product overview

DELL 2TB 7.2K SAS 3.5" HDD Expand your enterprise storage with the DELL 2TB 7.2K SAS 3.5" Hard Drive, designed for reliable performance in servers and data centers. With a 7,200 RPM rotational speed and 6Gbps SAS interface, this drive delivers consistent read/write speeds for business-critical applications, file storage, and backup solutions. The 2TB capacity provides ample space for databases, virtualization, and large-scale storage workloads. Built for durability and continuous operation, the Dell 3.5" SAS HDD ensures data integrity with enterprise-grade error correction technology. Ideal for enterprise servers, storage arrays, and backup systems, it combines high-capacity storage with reliable performance in mission-critical environments.

Top Highlights

- Reliable Enterprise Performance: 7,200 RPM with SAS interface for consistent access
- 2TB Capacity: Suitable for large-scale storage, virtualization, and business applications
- Enterprise-Grade Durability: Designed for 24/7 operation with error correction
- 3.5" Form Factor: Fits standard enterprise servers and storage arrays
- Stable & Consistent: Maintains performance under heavy workloads
- Optimized for Business Workloads: Ideal for databases, backups, and storage expansion

Technical Details

Brand: Dell Capacity: 2TB Interface: 6Gbps SAS Form Factor: 3.5" Rotational Speed: 7,200 RPM Cache: [Insert if known, e.g., 128MB] Compatibility: Enterprise servers, storage arrays, backup systems Durability: Enterprise-grade construction for continuous operation

Why You Should Buy It

- High-Capacity Storage: Supports large databases and enterprise workloads
- Reliable & Durable: Built for continuous operation in servers and data centers
- Stable Performance: Maintains consistent speeds under heavy workloads
- Optimized for Enterprise: Perfect for backups, virtualization, and storage expansion
- Data Integrity Protection: Error correction ensures secure operation

Recommended Use Cases

- Enterprise servers and storage arrays
- Virtualization and database environments
- High-performance business applications
- Backup and disaster recovery systems
- Large-scale file storage
