APC AR8561 NetShelter SX 600mm Cable Trough

SKU / Model: AR8561

Product overview

The APC AR8561 NetShelter SX 600mm Cable Trough provides an overhead pathway for routing power and network cabling across the top of NetShelter SX enclosures. Designed for 600mm (24-inch) wide racks, this roof-mounted cable trough eliminates the need for ceiling-suspended cable trays by creating an integrated, secure cable routing system. It features toolless installation and helps maintain proper cable bend radius while facilitating cable separation and airflow management in high-density data center and server room environments.
