

Cisco Catalyst C1000-24FP-4G-L 24-Port Gigabit Ethernet Full Po

SKU / Model: C1000-24FP-4G-L

Product overview

The Cisco Catalyst 1000 Series C1000-24FP-4G-L switch delivers simple, flexible, and secure network access for enterprise branch offices and small-to-medium businesses. Operating on classic Cisco IOS Software, it offers standard Layer 2 switching capabilities along with comprehensive network monitoring and security features. Key features include:

- Port Configuration: 24x 10/100/1000 RJ-45 Gigabit Ethernet ports and 4x 1G SFP uplink interfaces.
- Power over Ethernet: Full PoE+ support with a total power budget of 370W to power IP phones, surveillance cameras, and wireless access points.
- Simplified Management: Features an intuitive on-box web UI, command-line interface (CLI) via console and micro-USB ports, over-the-air Bluetooth configuration, and SNMP support.
- Security & Quality of Service: Advanced 802.1X, Access Control Lists (ACLs), Port Security, and multi-level QoS prioritization for seamless voice, video, and critical data transport.
- Hardware Reliability: High mean time between failures (MTBF) rating and compact 1RU rack-mountable chassis.
