Product overview

Dell OptiPlex 5000 SFF i7-12700 / 8GB / 512GB SSD / RW / BRZ / Windows 10 The Dell OptiPlex 5000 SFF provides high-performance computing in a space-saving Small Form Factor chassis, perfect for offices, home workstations, and enterprise setups. Powered by an Intel Core i7-12700 processor, it ensures smooth multitasking and efficient performance for demanding professional applications. With 8GB RAM and a 512GB SSD, the system delivers fast boot times, quick file access, and responsive operation for everyday workflows. Includes RW (read/write optical drive) and BRZ (business-ready zero-touch) features for flexible media handling and enterprise deployment. The Small Form Factor (SFF) design allows placement in tight workspaces without sacrificing performance or expandability. Preloaded with Windows 10, it offers a familiar, secure, and stable environment for business productivity. Multiple connectivity options, including USB, HDMI, and network ports, enable easy integration with peripherals, monitors, and office networks.
