Lexar ARES RGB DDR5 6000 CL30 2*16GB - Black

SKU / Model: LEXAR-LD5BU016G-R6000GDLA

Product overview

Lexar ARES RGB DDR5 6000 CL30 2x16GB Black (LD5BU016G-R6000GDLA) Elevate your PC performance with the Lexar ARES RGB DDR5 6000 CL30 2x16GB Memory Kit, designed for gamers, creators, and performance enthusiasts. With blazing-fast 6000MT/s speeds and low CL30 latency, this dual-channel kit delivers ultra-smooth gameplay, fast load times, and excellent multitasking capabilities. The sleek black heat spreader with vibrant RGB lighting not only enhances cooling but also adds a striking visual element to your setup. Intel XMP 3.0 support allows effortless one-click overclocking for optimized performance, making it ideal for high-end gaming rigs and professional workstations. Built with premium ICs, the Lexar ARES RGB ensures stability under heavy workloads, giving you reliable performance when it matters most. Whether gaming, streaming, or rendering content, this memory kit provides the speed, capacity, and style your system deserves. Its RGB lighting makes it perfect for showcasing in aesthetic builds while maintaining top-tier performance. ? Top Highlights ? Blazing DDR5 Speeds 6000MT/s with low CL30 latency for ultra-fast performance ? Optimized for Gaming Smooth and responsive gameplay for high-end gaming rigs ? Vibrant RGB Lighting Customizable lighting to enhance your PC aesthetics ? Premium Heat Spreader Efficient cooling for stable performance under heavy workloads ? Intel XMP 3.0 Ready One-click overclocking for easy performance tuning ? Dual-Channel Kit 2x16GB modules for maximum bandwidth and multitasking ? Technical Details Brand: Lexar Model: LD5BU016G-R6000GDLA Capacity: 32GB (2x16GB) Memory Type: DDR5 Speed: 6000MT/s Latency: CL30 Form Factor: UDIMM Voltage: 1.35V Color / Design: Black with RGB lighting Compatibility: Intel XMP 3.0 supported motherboards ? Why You Should Buy It ? High-Speed Gaming & Streaming Perfect for competitive gaming and content creation ? Future-Ready DDR5 Technology Fast, efficient, and built for next-gen PCs ? Easy Overclocking Intel XMP 3.0 simplifies performance tuning ? Reliable Build Quality Durable modules for long-term stability ? RGB Aesthetics Adds style and customization to any gaming setup ? Recommended Use Cases High-performance gaming PCs Streaming and content creation workstations Video editing and rendering rigs Multitasking-intensive professional desktops RGB-enhanced builds for aesthetics and performance
