

Bambu Lab FAC106 Heatbed Unit (For 220V Printer)

SKU / Model: FAC106

Product overview

? Product Name Bambu Lab FAC106 Heatbed Unit (For 220V Printer) Genuine Replacement Part ? Product Overview The Bambu Lab FAC106 Heatbed Unit is a genuine replacement designed specifically for 220V printers. It provides consistent and even heating across the build surface, ensuring strong first-layer adhesion and minimizing warping. Built for durability and precision, this heatbed unit is essential for maintaining optimal performance in high-voltage Bambu Lab printer setups. ? Top Highlights ? Uniform heating Ensures consistent temperature across the entire bed ? 220V compatibility Designed for high-voltage printer models ? Durable construction Built to withstand long-term use ? Easy installation Simple replacement process for quick maintenance ? Improved adhesion Helps prevent warping and supports high-quality prints ? Technical Details Specification Details Model FAC106 Heatbed Unit Compatibility Printers configured for 220V input Function Provides heated build surface for improved adhesion Material Aluminum base with integrated heating element Voltage 220V Dimensions Approx. 256 mm ×256 mm ×5 mm Weight 0.45 kg Included in Box Heatbed Unit ✕ Version Designed for 220V printer models ? Why You Should Buy It ? Ensures strong first-layer adhesion for reliable prints ? Genuine Bambu Lab part for guaranteed compatibility ? Reduces warping and print failures ? Maintains consistent heating for high-quality results ? Recommended Use Cases ? Replacing a worn or damaged heatbed ? Restoring optimal performance in 220V printers ? Ensuring reliable adhesion for large prints ? Supporting consistent results across different filament types ? Customer Assurance ? Returns Policy: Returns accepted as per standard reseller terms and conditions ? Shipping Info: Delivery handled by reliable logistics partners with tracking support ? Customer Support: Assistance available via official support channels and authorized resellers ? Call to Action Upgrade your 220V printer with the FAC106 Heatbed Unit for consistent, high-quality prints. Thanks for choosing YOUR TRUSTED IT PARTNER.
